## EDUCATION FOR WORK IN POOR RURAL AREAS: A Viable Strategy of Non-formal Education

OOIJENS Jan, ESPINOZA VERGARA Mario and TAMPE BIRKE Alfredo

2000 214 pages

ISBN 92-9049-372-1

This book contains a proposed model of Education for Work applicable to lower income rural and urban populations. The model presented here is the product of the Education for Work Project (POCET), an experimental project conducted in the Republic of Honduras between 1990 and 1996, although knowledge drawn from the experiences of adult education in other countries has also been taken into account.

The proposed model is the product of a process of experimentation and systematic analysis. As such it may be considered a scientific method applicable to other populations with similar characteristics, that is to say rural populations engaged in subsistence agriculture with low levels of education, a high rate of illiteracy and precarious social services. It may also be applied to poor semi-urban populations.

This book is intended to be used by high level directors, professionals and technicians with operational responsibilities at the middle level of public institutions, and the directors of private organizations that participate in the development of youth and adult education for both men and women.

Dans la mesure où la globalisation demande aux nations entières d'être compétitives, la productivité n'est plus la responsabilité de la seule entreprise, elle devient l'objectif de tous les opérateurs. Dans cet esprit, le manuel propose une approche tripartite.

1997      146 pages, jeu de transparents,

Que nous soyons chef d'entreprise, directeur des ressources humaines, syndicaliste, responsable politique, étudiant, etc., la privatisation d'une entreprise publique nous touche comme bon nombre d'acteurs de la vie économique. Cependant, la privatisation est un processus complexe qui demande très souvent à être mieux appréhendé et surtout mieux expliqué. L'objectif de ce mémento, qui s'est voulu didactique, est de permettre à son utilisateur de trouver facilement les réponses aux questions qu'il se pose dans l'exercice de sa mission: faut-il privatiser une entreprise publique? Qu'est-ce qu'une privatisation? Quelles sont les risques inhérents et les préalables nécessaires à la privatisation? Quelles leçons peut-on tirer des opérations déjà réalisées?

Les différents thèmes auxquels renvoient ces interrogations sont présentés sous la forme d'une étude de cas, de 11 présentations de privatisation européennes et africaines, ainsi que de 21 leçons, contenant des indications utiles sur la manière de les apprécier et de les présenter dans le cadre d'une formation.

Este modulo focaliza la atención en un análisis de las condiciones institucionales para evaluar la factibilidad de diseñar y producir medios didácticos. Se presenta una breve descripción de las fases de un proceso de elaboración de medios, contemplando la necesidad de organizar y articular temporalmente el trabajo y la posibilidad de contratar especialistas para la producción. Se proponen lineamientos para la adquisición y la adaptación de medios didácticos existentes, conjuntamente con criterios de selección.

**SISTEMA DE APOYO****Módulo 7**

1995 106 páginas  
 ISBN 92-9049-325-3

El apoyo a los participantes es otro de los componentes clave de la formación flexible y el diseño de un sistema efectivo de apoyo es esencial para la implementación de este enfoque formativo. En el diseño de un sistema de apoyo se consideran la organización y la articulación de los recursos a nivel institucional con los del contexto externo, sugerencias de implementación de las estrategias de apoyo y de obtención de información para el monitoreo de las distintas etapas del proceso de formación.

**EVALUACION DEL APRENDIZAJE****Módulo 8**

1995 80 páginas  
 ISBN 92-9049-326-6

Este módulo presenta la evaluación del aprendizaje como una práctica inherente al proceso formativo y como una faceta de la evaluación de la formación en su conjunto. En este marco se señalan sus características y diferencias en la aplicación de procesos flexibles de formación con la evaluación convencional, los cambios en el rol del participante frente a la evaluación y, desde la óptica del docente, se consideran aspectos ligados a la determinación de estrategias de evaluación más adecuadas a cada situación.

**GESTION DE LA FORMACION FLEXIBLE****Módulo 9**

1995 92 páginas  
 ISBN 92-9049-327-7

La adopción de la formación flexible plantea nuevos problemas de gestión. La variedad de opciones estratégicas para alcanzar los objetivos de aprendizaje y la remoción de barreras de tiempo y espacio, entre otros aspectos, exigen modificar los roles de los recursos humanos y las funciones de los departamentos o secciones involucrados en este tipo de formación. Del conjunto de tareas que le corresponden a la gestión, se tratan tres relativas al ámbito interno: la planificación y gestión de los recursos, la planificación de las acciones y el monitoreo de un sistema flexible.

1995 70 páginas  
 ISBN 92-9049-328-6

La evaluación como proceso de análisis crítico de un programa combina tres tipos de revisión sobre los siguientes aspectos: el contenido, la coherencia interna del programa y su impacto. En este módulo se presentan cada uno de ellos y se sugiere una serie de interrogantes a considerar cuando se ponen en práctica estos tipos de análisis y técnicas para efectuar las evaluaciones mencionadas.
